## SUPERVISOR CPD EVENTS AT MEDWAY HOSPITAL

Medical Education at Medway Hospital holds CPD for those who are involved in supervision of doctors in training and medical students extremely highly. To support this we have a series of CPD events for educators which we'd encourage individuals to attend which will benefit self development and can be used as CPD evidence for educational appraisals to highlight being up to date with educational requirements.

Dates are available for sessions in April, May and June but further sessions will be available later in 2022 as well.

Any new supervisors wishing to have accreditation training please liaise with June Mossop-Toms, Medical Education Manager – [june.mossop-toms@nhs.net](mailto:june.mossop-toms@nhs.net) for more information
